Subject: Re: Can you give a status update in about an hour?

This needs for more context of our history at the site, risks that required us and the state to take various actions at the site, and the immediate reasons why we were there. Also, probably want to say that both the internal review and external/independent review will examine how the work plans were implanted consistent with EPA policies and accepted engineering standards. Let's discuss in my office in about 15 minutes
